

# Reduce Risk While Increasing DevOps Efficiency

## Increasing SecOps maturity can help enterprises meet rising challenges

ENTERPRISES HAVE VARYING SECOPS MATURITY, AND ONLY 5% HAVE OPTIMIZED THEIR SECOPS APPROACH.

4% of organizations have no distinct security operations programs

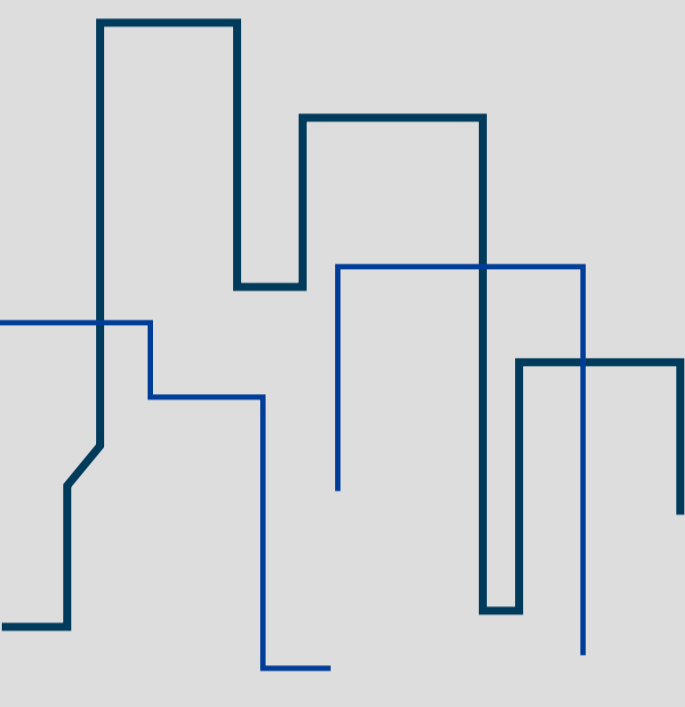

18% of organizations have security processes that are ad hoc primarily reacting to industry news about emerging threats as they arise

22% of organizations have security operations capabilities and common practices that are employed on occasion

## ENTERPRISES STRUGGLE TO KEEP UP WITH EVOLVING SECURITY OPERATIONS AND COMPLIANCE REQUIREMENTS

60% Lack proper staffing

55% Can't keep up with regulations

54% Report day-to-day activities take up too much time

49% Experience challenges preventing security

## AS A RESULT, ENTERPRISES DEPLOY MULTIPLE TOOLS TO IDENTIFY AND PRIORITIZE VULNERABILITIES AND MANAGE COMPLIANCE.

■ Expanding/Upgrading

■ Planning to deploy

Tools to help identify affected systems **42%** **13%**

Tools to help prioritize security issues **42%** **17%**

Tools to help report on enterprise compliance with regulations **39%** **12%**

Tools to put security issues inside operations work streams **36%** **21%**

Tools to consolidate data about identification, deployment, and prioritization of security issues **35%** **10%**

Tools to help ensure security and compliance of application in DevOps process **34%** **26%**

Tools to help deploy patches **33%** **17%**

## IMPROVING SECOPS HAS DIRECT BENEFITS . . .

### TOP FIVE RANKED\*

69% Fewer security breaches

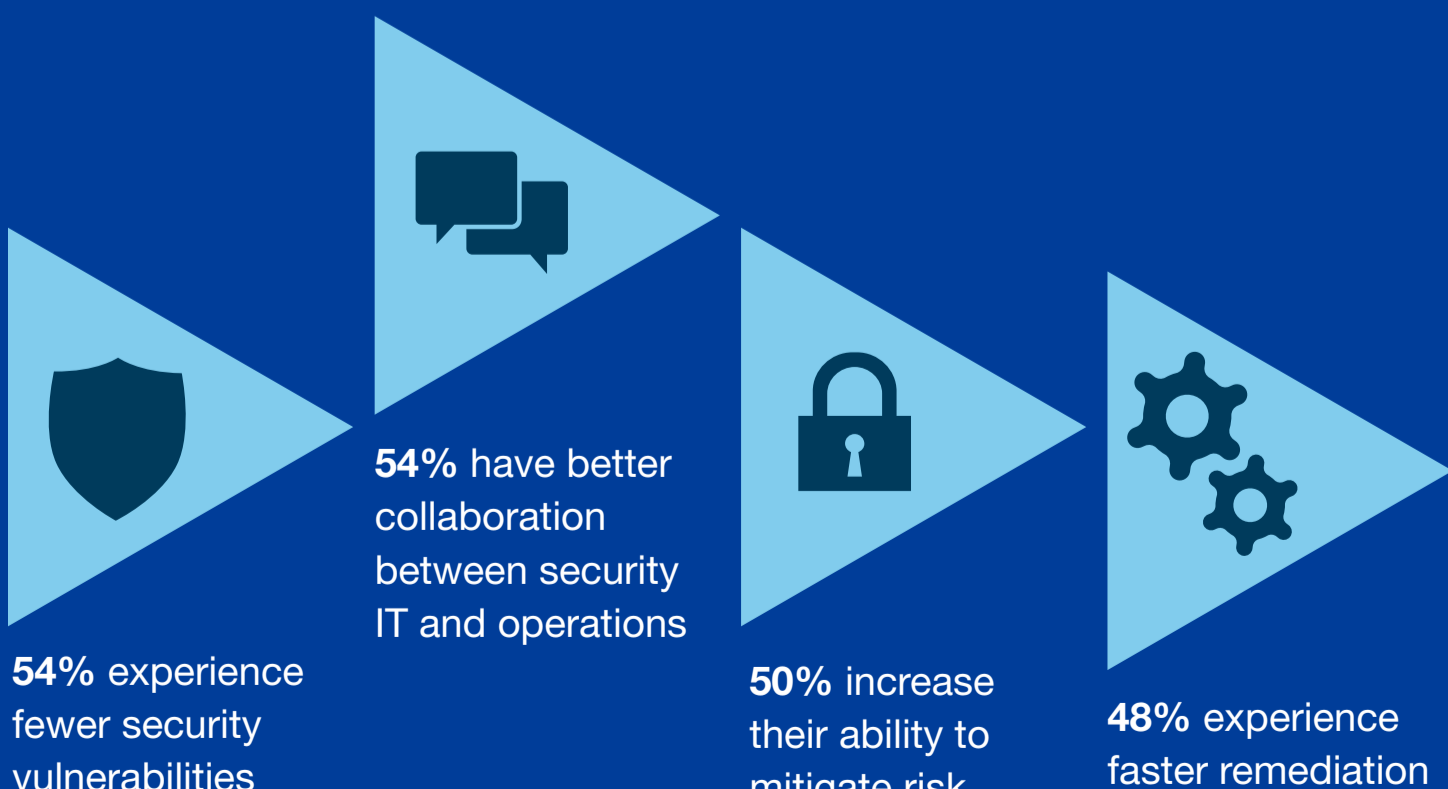

68% Fewer security distractions

49% Decreased cost of patching

47% Improved efficiency between operations and development teams

47% Decreased cost of compliance

## ...AND IMPROVED SECOPS MATURITY DRIVES CLEAR BUSINESS BENEFITS.

**Methodology:** This Technology Adoption Profile was commissioned by BMC Software. To create this profile, Forrester Consulting completed a custom survey of 100 IT security and operations decision makers working within enterprises with more than 1,000 employees in August 2017.

**Source:** A commissioned study conducted by Forrester Consulting on behalf of BMC, August 2017

Base: 100 IT security and operations managers in US enterprises  
\*Base: 56 organizations with more mature SecOps in US enterprises
